DEPARTMENT OF ANTHROPOLOGY • WASHINGTON STATE UNIVERSITY
PULLMAN, WA 99164-4910 • USA

RESEARCH PROGRAM

Understanding why and when humans form relationships that span distance, from an evolutionary perspective and a 21st century perspective. This endeavor involves my interests in risk management, collective action, market participation, and migration, and I apply my work in the domains of resource management and the negative impacts of climate change.

EDUCATION

Max Planck Institute for Evolutionary Anthropology

2016-2018 Postdoctoral scholar, Department of Human Behavior, Ecology, and Culture

University of California, Santa Barbara

2016 Ph.D., Anthropology

2013 M.A., Anthropology

2012 M.A., Applied Statistics

University of California, Los Angeles

2009 B.A., Anthropology, Psychology; *summa cum laude*

POSITIONS HELD

2018-present **Assistant professor**, Department of Anthropology, Washington State University
2018-present **Affiliated researcher**, Department of Human Behavior, Ecology, and Culture, Max Planck Institute for Evolutionary Anthropology
2017-present **Affiliated researcher**, Instituto de Investigaciones Antropológicas y Arqueológicas, Universidad Mayor de San Andrés, La Paz, Bolivia
2015-2016 **Teaching associate**, UCSB Anthropology Department (certificate recipient, UCSB Summer Teaching Institute for Associates)
2013-2014 **Lab manager**, UCSB Broom Center for Demography: Social Demography Computer Lab
2013-2014, 2016 **Head teaching assistant**, UCSB Anthropology Department
2012-2013 **Lab assistant**, UCSB Broom Center for Demography: Social Demography Computer Lab
2010-2015 **Teaching assistant**, UCSB Anthropology Department
2008-2009 **Administrator**, UCLA Center for Behavior, Evolution, and Culture

FIELD RESEARCH

- 2012-present **Research with the Pueblo Indígena Mositén**
Site founded: 2012. Role: PI. The Mositén live in Alto Beni, a region of the Beni River valley bordering the La Paz, Beni, and Cochabamba Departments of Bolivia. With the Mositén, I study the predictors of building extra-community relationships, inter-household differences in market integration, and household economy.
- 2012-present **Research with intercultural community**
Site founded: 2012. Role: PI. Intercultural (a pseudonym) is a community of primarily Aymara and Quechua descent located in Alto Beni, a region of the Beni River valley bordering the La Paz, Beni, and Cochabamba Departments of Bolivia. With the Interculturales, I study the predictors of building extra-community relationships, inter-household differences in market integration, and household economy.
- 2010-present **Tsimane' Health and Life History Project**
Role: affiliated investigator. The Tsimane' live in mostly remote villages in the Beni Department of Bolivia. With the Tsimane', I study the predictors of building extra-community relationships, inter-household differences in market integration, and household economy. I have also studied individual differences in rates of senescence (primarily in the oxygen transport system), moral psychology and norm systems, and collective action.
